

Economic Development and Green Environment (EDGE) Pilot Program

Does your municipality want to bring more manufacturers to your area?

Are you interested in redeveloping brownfields or bringing new life to vacant industrial sites?

You should know about EDGE: an innovative redevelopment program designed to provide certainty to Wisconsin manufacturers, communities, and developers.

- Municipalities can use TIF or ERTID funding to make a property eligible for EDGE
- Contaminated sites are redeveloped to create job opportunities
- A company must locate on a Brownfield to receive the following benefits:
 - Green Tier participation
 - Flexible air registration permit
 - No additional air pollution controls for 10 years (unless federally required)
 - Environmental liability protections

Do you have brownfields in your community you want to redevelop?

Do you want to promote industry that holds itself to higher environmental standards?

Do you have a plan to attract manufacturers to your area?

Contact DNR at DNREDGE@wi.gov for information on becoming a participant in the *EDGE Pilot*
